

# NQT Displays Checklist

- Check school displays policy (should be in Welcome pack or on website)
- Try to have a chat with your NQT mentor before the end of term about what the school expects and if you will have displays help
- Ask if the school uses specific fonts and colours
- Find out what, if any, displays outside your classroom will be your responsibility.
- Once you have a class list make several sets of labels. Save time and stress by using editable ones from Teachers Pet or Twinkle.
- Try not to spend your own money on display materials. They will be provided. See the Display Makers Toolbox for useful things you might want to buy.
- Use the transition day to generate some sort of quick 'getting to know you' display that you can have up on the first day.
- If you are in the UK avoid US based classroom design sites. Display here is more education than decoration.
- Read this post about [Display Basics](http://wp.me/p3GaMz-p3) (<http://wp.me/p3GaMz-p3>)
- Join the Classroom Displays Monthly mailing list
